Dispersal Sale to be sold in Guineas (£1.05)

DJ, AE & MJ SKEWES
CHIVERTON FARM, ROSUDGEON, PENZANCE, CORNWALL, TR20 9PE

Kivells are pleased to have received instructions from Donald, Anita & Mathew Skewes of Chiverton Farm, Penzance, to conduct the dispersal sale of their pedigree and closed herd of dairy cattle. The herd was established in the 1950s and has remained completely closed for over 70 years, with high-quality British Friesian genetics forming the foundation of the breeding programme from the outset. Mathew joined the family partnership in the early 2000s and has since been responsible for the day to day management of the dairy herd. With substantial infrastructure investment now required, the family has taken the difficult decision to disperse the milking cows and in calf heifers, choosing to concentrate on other enterprises within their farming business.

The cows are managed on a simple system, and milked in a abreast parlour and grazed through the spring to autumn months. The cows are fed grass silage in the winter months with concentrate fed through the parlour.

The cows are **cubicle housed** and vaccinated for BVD with the whole herd being Johnes screened, all cows offered for sale have tested negative. The herd has also never had a clinical case of digital dermatitis. Selective dry cow therapy is used across the herd.

Auctioneers Comments:

This sale includes good quality, well managed, Pedigree Friesian cows and heifers from a genuine closed herd. The cows are medium-sized with very good udders, legs and feet and carry fantastic condition. The cows are AI bred and have great potential to respond to different management systems. Can we thank the Skewes family for their instructions and wish them all the best for the future.

Dispersal Sale to be sold in Guineas (£1.05)

NLJ TREVETHAN PERRAN ROUND FARM, ROSEHILL ROSE, TRURO, CORNWALL, TR4 9JX

Kivells are delighted to have received instructions from Neil Trevethan to disperse his Perranround herd of Pedigree Ayrshires at Exeter Livestock Centre on Friday 15th August.

The Perranround herd was established in 1998 with purchases from Chris Weaver's Tregays herd and the Willesley herd. The herd has been a closed herd since 2011 and the breeding policy has always been to use 100% pure Ayrshire bulls with concentration on breeding functional hardy cows.

Management - the herd is farmed on a very simple New Zealand style grazing system. The Cows are outside all year round and are not housed in the winter. They are fed round bale silage in ring feeders with 1kg of rolled barley and 18% cake fed. The herd is milked in a shippen twice daily.

Herd average - not officially recorded but milk sold is around 7000kgs 3.75%bf 3.31%p cc173

Herd Health - no vaccinations are used. Dry Cow therapy - everything has sealant and anything over 230 cell count is treated with antibiotic tubes.
The herd is Bulk milk tested annually for Johnes.

Dispersal Sale to be sold in Guineas (£1.05)

DJ, AE & MJ SKEWES
CHIVERTON FARM, ROSUDGEON, PENZANCE, CORNWALL, TR20 9PE

Kivells are pleased to have received instructions from Donald, Anita & Mathew Skewes of Chiverton Farm, Penzance, to conduct the dispersal sale of their pedigree and closed herd of dairy cattle. The herd was established in the 1950s and has remained completely closed for over 70 years, with high-quality British Friesian genetics forming the foundation of the breeding programme from the outset. Mathew joined the family partnership in the early 2000s and has since been responsible for the day to day management of the dairy herd. With substantial infrastructure investment now required, the family has taken the difficult decision to disperse the milking cows and in calf heifers, choosing to concentrate on other enterprises within their farming business.

The cows are managed on a simple system, and milked in a abreast parlour and grazed through the spring to autumn months. The cows are fed grass silage in the winter months with concentrate fed through the parlour.

The cows are **cubicle housed** and vaccinated for BVD with the whole herd being Johnes screened, all cows offered for sale have tested negative. The herd has also never had a clinical case of digital dermatitis. Selective dry cow therapy is used across the herd.

Auctioneers Comments:

This sale includes good quality, well managed, Pedigree Friesian cows and heifers from a genuine closed herd. The cows are medium-sized with very good udders, legs and feet and carry fantastic condition. The cows are AI bred and have great potential to respond to different management systems. Can we thank the Skewes family for their instructions and wish them all the best for the future.
