FOREWORD

Kivells are delighted to have received instructions from Reed Partnership to disperse their Dairy herd at Exeter Livestock Centre on Friday 15th November.

The Reed family started milking back in the 60's with my late mother on the dairy cows and late father on timber. Over the decades, it grew significantly but diversification opportunities in the 2000's saw the herd dispersed in 2018 with only a few youngstock remaining. In 2020, those youngstock along with selective purchases re-introduced milking back onto the home farm with a focus on easy to maintain cows with high compositional quality milk to suit their contract.

The herd has been served principally to Cogent bulls with a focus on longevity together with Angus bulls used to sweep.

The decision has now been made to cease milk production due to renewed infrastructure requirements on the farm.

Herd Management

The cows are fed a partial TMR consisting of grass silage, a small amount of maize, rolled wheat and maize distillers. They are also batch fed a small amount of cake in the Herringbone parlour where they are milked twice per day. The cows graze through the summer months with free access to TMR. They are cubicle housed on deep beds and mattresses. This simple management system which does not include milk recording produced the following creditable averages for the year.

Herd Average

Although not officially recorded the herd average from milk sold is

7803kgs 4.45 BF, 3.43 PTN SCC 152 (cows in sale)

Herd Health

The herd is vaccinated for BVD (Last vaccinated 17th Oct 24) and Leptospirosis (7th Nov 24) along with routine screening for Johnes. The cows were Eprinex wormed on the 26th October with in-calf heifers on the 10th Sept 24. Dry cows are treated with Cepritect dry cow therapy and Ubroseal.

The herd was pre movement tested on the 8th October 2024. A one-off recording of cell counts were taken on the 22nd October 2024.

Auctioneers Comments

This is a super herd of cows with several different types of cows which are all performing well. There are many good Holstein type cows which would perform well in more intensive system but also many crossbreeds and more medium sized cows of all breeds which will suit any system! We thoroughly recommend attendance to this genuine dispersal sale.

Kivells

The following herd will be sold in Guineas (£1.05)
