Unless advised otherwise you will be bidding and buying under these Conditions and you will be obligated to abide by these Conditions and these Notice to Purchasers. The LAA Conditions of Sale are also displayed in Kivells market office. Clauses 12 to 19 inclusive relate mainly to the Purchaser. This catalogue may also contain reference to Warranties as defined by the LAA Conditions of Sale. Warranty issues will not be considered if payment in full has not been received.

Risk – All livestock are at the risk of the Vendor before they are sold and at the risk of the Buyer when they are sold (fall of the hammer). It is strongly advised that Vendors and Buyers ensure that their insurance policies cover livestock at market premises and that Buyers have immediate cover for animals purchased.

Foreword

Kivells are delighted to have received instructions to disperse the milking & closest to calving In Calf Heifer portion of the Glebewin herd of Pedigree Holsteins on behalf of Michael & Caroline Smale of South Hellecott.

The Glebewin herd was established in 1956 by Michael's father, Gordon Smale, a former President of Holstein UK. This role carried not only great prestige but also significant commitments across the country. As a result, Michael and Caroline took full-time control of Glebewin Holsteins in 1988.

Throughout this period, our aim has always been to produce high-quality milk while breeding strong, long-lasting cows with multiple generations behind them. As a past Chairman of Holstein UK, breeding quality cows has been critically important to me and to the future of the breed.

This is a genuine dispersal sale. Due to ill health, the family has taken the difficult decision to disperse the milking portion of the herd and to concentrate on the months ahead, and hand over to the next generation.

We would like to thank everyone for their kind support over the years and wish all buyers the very best of luck with their purchases. We hope the cows bring you as much enjoyment as they have brought to Caroline and myself.

Michael & Caroline Smale

Management & Herd Health

The herd is managed on a simple system, with cows grazing for a minimum of six months of the year. Cows are parlour-fed and receive a diet of grass and whole-crop silage only.

- The herd is regularly tested for Johne's disease
- The herd is monitored for BVD, IBR, and Leptospirosis, with appropriate vaccinations in place to maintain a high herd health status.
- The cell count average of the cows in the sale is 154.
- The herd passed their annual TB test on 1st December 2025

Auctioneers comment

This a very genuine dispersal sale of Holstein cows which are farmed on a very simple and commercial system. The cows are in great condition and are powerful cows with excellent udders. We have no doubt that these cows will go away and perform well in a system and are certainly capable of yields on more intensive systems. The cows are exceptionally well bred and a credit to Michael & Caroline's dedication to breeding Holstein Cows. With so few dispersals on the market this sale is a wonderful opportunity not to be missed.

Vet comment

I have had the pleasure of working with Smale family for the past 12 months and have just taken over as their main vet recently from Tom Lush. The Smale family have been fully dedicated to the highest levels of welfare whilst developing a fantastic herd of cows.

I have always enjoyed my visits to the farm, appreciating the quality of stock, the high standard of husbandry provided for the cows right down to the newborn calves. Recent testing has yielded negative results for BVD, IBR, Leptospirosis and the herd is currently TB free.

Cows are at grass for a minimum of 6 months year, with the remainder of the year housed inside on cubicles. Lameness and mastitis levels are low and fertility has been good.

I am certain that any buyers will be happy with their purchases.

On behalf of the practice, I would like to wish Michael, Caroline & family the best of luck for the future.
