Foreword

Kivells are delighted to have received instructions from Stephen & Lucie Home to disperse their super Crossbred Autumn Calving Dairy Herd at Exeter Livestock Centre on Friday 28th March.

After much consideration, it is with a heavy heart that we have decided to sell our herd. Due to the required infrastructure and investment needed for the future and our only farming son making a life for himself in New Zealand we have decided to cease milk production at Stowford Park.

The Cows are predominantly a three-way cross being Viking Red x Jersey x Holstein Friesian. Viking Red for strength, health & fertility, Jersey for components and Holstein Friesian for production and udders. This has given a medium sized, long lived & robust cow with good components. Sires include VH Sparky, Westcoast Altamater, VJ Hitman, VJ Hauga, VR Vimo, VR Vilgar, VR Vilperi & VR Zesty.

As I write there has only been one case of mastitis in the last 12 months and 99% of the cows calved themselves with zero intervention.

Herd Average

The herd is not milk recorded but milk sold per cow is **7190Kgs 5.15%BF 3.81%P**

The herd cell count is immaculate and the latest bulk tank result showing:

5.24%BF 3.96%P cc55

Herd Health & Management

The herd is calved between October-December. In the winter the cows are fed big bale silage & Blend with 2kgs of blend through simple batch feeders in the parlour until turnout. The herd is rotational grazed with blend fed throughout the spring and summer. The herd is **Cubicle Housed** & Milked through a Herringbone Parlour twice daily.

The herd has been **TB Free** since May 2016 and we have never had any reactors in homebred stock. The herd is monitored for Johnes disease with very low prevalence. The herds is vaccinated for: Lepto (April), Salmonella (September), IBR (October) & BVD (December).

Auctioneers Comment

There is no doubt that this is one of the most attractive Sales of Crossbreds to come on to the market for some time! The herd is very impressive with excellent udders on medium sized functional cows. These cows have performed well on this simple grazing system but there is no doubt that many of these cows would suit more intensive systems and perform well. We thoroughly recommend attendance to this Dispersal Sale.

Vet Comment

I have always enjoyed working with Steve and the whole herd at Stowford Park. The herd is very well managed with good attention to detail and a dedicated attention to detail which has been very successful over the years.

The herd is vaccinated for BVD, IBR and Leptospirosis in addition to regular bulk tank monitoring. The herd has a National Johnes Management Control Plan in place and the herd is routinely screened. The herd fertility has always been positive and well managed with weekly routines throughout the service period, this allows for close monitoring of the herd and proactive health management.

Trink Dairy Ltd Cows

The following Cattle will be sold in Pounds (£)

**TRINK DAIRY LTD
LITTLE TRINK, TRINK, ST IVES, CORNWALL, TR26 3JG**

Kivells are pleased to have received instructions to sell the autumn calving portion of the herd of British Friesian & Crossbred cows from Chris & Rachel Knowles of Trink Dairy, St Ives.

Trink Dairy operate a grass-based system with mainly spring calving cows on a low-cost system. The cows are milked through a herringbone parlour, **cubicle housed** and vaccinated for IBR and Lepto. The herd is Johnes screened. The cows are fed on grass silage only and 4Kgs of cake in the parlour. The breeding of the herd has been predominantly to use New Zealand sires and the best of the British Friesian, grazing type bulls. All the cows are in calf for September/October 2025 to Aberdeen Angus. This is a genuine consignment of unselected cows calving in the autumn and the sale has arisen because Chris and Rachel have decided not to calve any cows in the autumn going forward and instead concentrate on their spring calving herd. For many years, Chris and Rachel have been selling dairy cows through Kivells which have gone away on to different systems and have performed extremely well.

Herd average: 5250kg 4.9BF 3.90P cc160
