Foreword

On behalf of Kivells, we look forward to welcoming you to Woodhouse Farm in Staffordshire for the Dispersal Sale of the milking and In Calf Heifer portion of the Plardiwick herd on behalf of Jez & Helen Allen.

The Plardiwick Jersey herd was established in 1997 and named after the hamlet our Staffordshire County Farm was located. In 2005 we moved a few miles down the road to Woodhouse Farm, where the herd was able to expand.

The first few in-calf heifers were bought from the Freeland herd dispersal, cows soon followed from Glanmor, Durmans, Appledown, Whitton and the Gwenby dispersal sales. The Gwenby cattle had a significant influence on the herd, notably Gwenby Hermitage Little Girl EX 91, who lived to 18 years (retired at 15). She was high yielding - 10 lactation 305 average over 8,000 litres, extended lactations averaged 10,900 litres. Her offspring have totalled 147 females and over a quarter of the animals in this sale are related to her.

The herd is managed on a 6 month summer grazing and 6 month winter housed system. Feeding grass and maize silage, with a blend balancer in the outside trough and dairy nuts to yield in the parlour. Carrs Billington have provided nutrition advice for most of these years and we wish to thank Tony Gutteridge and Duncan Rose for their invaluable support. The herd is milked twice daily through the **Herringbone Parlour and housed in Cubicles** during the winter.

Our milk buyer is Longley Farm which supports pure pedigree jersey herds to provide for it's excellent Jersey products.

We would also like thank our vets, EC Straiton and Partners for their advice and expertise looking after the herd from the start. Also, John Bridges for keeping the milking parlour alive.

We could not have survived the many trials and tribulations of dairy farming over the past 30 years without the help, support and encouragement from our family and many friends. Be it building, concreting, sheeting silage clamps, calving cows, preparing and showing cattle, etc., usually at short notice. Many, many thanks.

We are dispersing Plardiwick Jerseys due to our farm tenancy coming to an end and we are sadly approaching retirement.

Jeremy & Helen

NMR Herd Average:

Rolling herd average : 6973 litres Bf 5.70% Pro: 3.99%

Herd Health

Blue tongue vaccinated: 2 doses Bultavos 3 April/May 26. BVD tag and tested for many years, no cases detected. NMR Herdwise Johnes tested every 3 months, herd classified low, never had a clinical case in the herd. The herd passed a whole herd TB test on 14th September 2026.

Auctioneer Comment

The Plardiwick herd is a super herd of Cows and one of the best herds of Pedigree Jerseys to have come on the open market for some time! They are powerful cows with fantastic udders, legs & feet. Jez & Helen have managed this herd on a very simple system and there is no doubt that these cows would adapt well to a more intensive system as well as grazing systems too. They have enjoyed great success in the show ring and herd competitions over the years, and I thoroughly recommend attendance to this very genuine and important dispersal sale.

Mark Davis – Kivells

NOTICE TO PURCHASERS:-

Please could all buyers and particularly those under **TB Restrictions**, make sure they are fully satisfied with their purchases before the cattle are removed from the premises. If you are purchasing cattle and your farm is under TB Restriction, it is not possible for the vendor to take the animal back should there be an issue, **therefore we ask that all buyers ensure their purchases are sound and correct in the udder and are completely satisfied before taking them home.**

IMPORTANT NOTICES

New Buyers Registrations: Any new purchasers interested in buying cattle should contact Kivells prior to the sale in order to create an account. **All new purchasers will need to provide a trading reference to the Auctioneers Office prior to the sale. Please contact 01392 251261**
