2026 is the 20th Anniversary of Bosahan Simmentals

Bosahan farm has been in the Olds family since 1964 and was a dairy enterprise for forty-two years. However, due to a change in circumstances, the decision was made to sell the Trewardreva dairy herd in 2006 and concentrate more simply on the home farm, which is made up of fifty acres of permanent grassland.

The Simmental herd was established soon after when John, having been impressed by the temperament of the Simmental breed, purchased four Abbey Chase second calvers. In May 2006 several additions were added secured at the Bristol Society sale, including a stock bull Winford Storm and three females, Atlow Petruska, Beanhill Penny and Grangewood Paris. These seven foundation cows went on to produce an impressive seventeen heifer calves in three years. Other successful purchases followed including Hockenhull Natalie 48th, Bolankin Anita, Sterling Noontimes Wanda, Brigstock Venus and Ballinalare Farm Courtney. Descendants from eleven of these females continue their bloodlines at Bosahan.

The next stock bull arrived from Scotland in 2011. Skerrington Armada proved to be a curve bender in improving the breeding traits of the Bosahan herd. Two of his daughters have recently been awarded Golden Cow status by the British Simmental Society. The qualifying criteria demands that a cow must have had five fully pedigree registered calves within an average calving interval of thirteen months, she must have breeding indexes above the breed average and be classified excellent. Bosahan Ingrid Venus EX93 (Lot 2) and Bosahan Kellie Pearl Velia EX92 a granddaughter of Beanhill Penny (Lots 7 & 16) ticked all the boxes.

The bloodlines of other stock bulls feature in the catalogue are Heathbrow Freddie Star 14 (P), Kinclaven Infusion 17 (P) and Knockreagh Immanuel 17. Together with A.I. sires Dirnanean Jacob, Derrycallaghan Ernest, Vale Royal Hamish, Denizes Exclusive and Dirnanean Apostle.

The herd currently uses two stock bulls; Ranfurly Phoenix who is polled and was sourced from Northern Ireland at the age of ten months and Popes Rector purchased last September after winning the Junior Simmental Championship at the Great Yorkshire Show. Phoenix has his second crop of calves on the ground and has been used successfully on heifers.

The herd has been inspected and classified since 2022. Of twenty- two eligible females ten are excellent and twelve very good. The ten heifers with calves at foot together with Phoenix will be assessed this year.

Bulls are commercially fed at weaning through out of parlour feeders on Crediton Milling 14% rapid beef nuts with added yeast plus quality dry silage and barley straw. Bulls offered for breeding are sold as fit to work.

Option of 20 straws of Skerrington Armada offered to the purchaser of the top priced female worth £300.00.

Health Status

SRUC Elite Herd testing since 2012 and accredited free of BVD, IBR and Lepto. Johnes Risk Level 1. All lots have been BVD, IBR and Blue Tongue3 vaccinated. Annual T.B. test 13th April 2026.

Auctioneers Comment

We are delighted to be hosting the 20th Anniversary Sale of Bosahan Simmentals on behalf of John, Bridget & Daniel Olds. After a recent visit to view the herd you cannot fail to be impressed by the quality of this herd and it is clear to see the passion and dedication to breed the very best at Bosahan! Following a successful production sale in 2022 this year marks 20 years fantastic years of breeding Simmentals and this special sale brings the opportunity to invest into some of the very best genetics from this herd! There really are some outstanding individuals in the Sale. One of the things that really impresses me is just how quiet these cattle are which is a real credit to the stockmanship of the family! Without doubt this is a sale not to be missed by any breeder or enthusiast!

Mark Davis – Kivells

ACKNOWLEDGEMENTS

Our journey with pedigree Simmentals from 2006 to date would not have been possible without the support of our family and friends. Membership of Cornwall Simmental Club has provided opportunities to visit established herds throughout the U.K. and Eire and help us discern the type of cattle we want to produce. Cattle with length, good toplines and lovely heads. Balanced bulls, and females with neat udders. We feel that the Bosahan Herd reflects the unique qualities of the breed combining fertile nurturing dams, sires of early finishing cattle and an easy handling temperament. Bloodlines from our foundation cows have been retained. We have shared memorable moments with our three sons and their partners. Their efforts at home behind the scenes or at shows and sales have been our greatest asset. A special mention should go to Daniel whose enthusiasm and dedication to showcase the Bosahan Herd has enabled us to achieve top sale prices, herd competition awards and show ring accolades.

Finally, we wish to acknowledge the professionalism of the Kivells Team, B Bridgman Livestock, Rachael Bromage Photography and Debbie's Designs Photography & Marketing in presenting our cattle to you.
