

BRITISH CHAROLAIS CATTLE SOCIETY

SOUTHWEST CHAROLAIS ASSOCIATION
41st Annual Spring Show & Sale
Of 17 Bulls & 6 Females

ONLINE BIDDING AVAILABLE  **MartEye**

FRIDAY 17TH APRIL 2026
Show: 10.00 | Sale at approx. 12pm

EXETER LIVESTOCK CENTRE
Matford Park Road, Exeter, Devon, EX2 8FD

KIVELLS

www.kivells.com

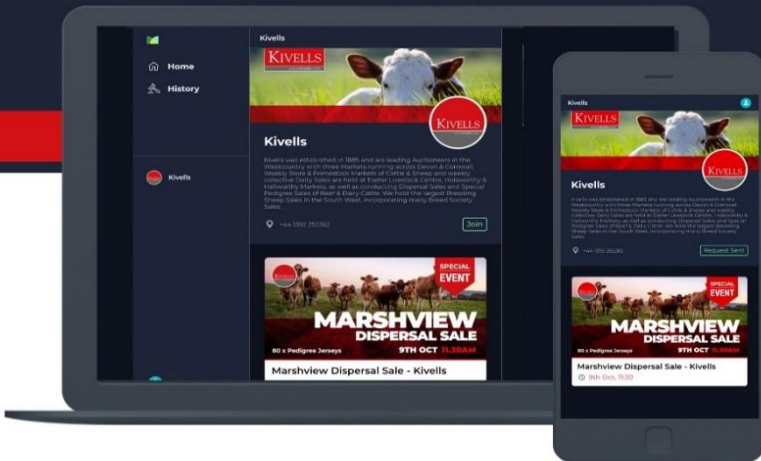

ONLINE BIDDING NOW AVAILABLE

Simply Download the **MartEye App** from your phone App Store & Register.
Then press the **JOIN** button on the Kivells Page

ALSO AVAILABLE ON WEBSITE:

kivells.marteye.ie

Payment Terms

All accounts must be settled in full with the Auctioneers on the day unless other arrangements are made with the Auctioneers prior to the sale.

Order of Sale

The Sale will commence at approx. 12 noon following the Stirks with the Charolais Cattle followed by the Salers, Aberdeen Angus and then commercial Breeding Cattle.

Livestock Notice to Purchasers

Health & Safety – Kivells accept no liability for any damage or injury to persons, livestock, vehicles or plant not arising out of their negligence. Any person entering the livestock market premises does so at their own risk and must comply with the requirements of any Health and Safety notices. All persons entering the livestock markets premises are hereby given notice that there are potential hazards due to the type, penning, herding, loading and unloading of livestock and vehicle movement. Caution should be exercised and children must be fully supervised at all times. Kivells reserve the right to refuse admission to any person or vehicle into the livestock market premises without giving reason. Kivells strongly advise that no persons access the sale ring, pennage or livestock passageways during the sale or whilst animals are being moved through passageways. Should any person decide to enter these aforementioned areas they do so entirely at their own risk. Any incidents or accidents in the livestock market premises should be reported to Kivells market office immediately.

Biosecurity and Livestock Welfare – All persons entering Kivells livestock market premises must comply with all current Biosecurity legislation, rules and conditions. All persons should be in clean clothing and disinfect footwear upon entry and exit from the livestock market premises. Hand wash facilities, disinfectant boot dips and brushes are available and should be used. Vehicles used to transport animals to or from the livestock market premises must comply with current cleaning and disinfection legislation. All vendors, purchasers, agents and hauliers must comply with all current legislation governing the welfare of livestock whilst at Kivells livestock market premises or in transport to or from the livestock market premises. Any concerns over Biosecurity and Animal Welfare should be reported to Kivells Biosecurity and Animal Welfare officers, whose details are located in the Kivells market office.

Registration – In order to bid, all **new** Buyers are required to register before the auction, at the Kivells market office or as otherwise advised by the Auctioneers. All such Buyers will be asked for two forms of identification and a credit reference will be required. Acceptable identification includes Driving Licence/Passport together with a Utility Bill/Proof of Address/Business Letter Heading/Business Card. The Auctioneers reserve the right to request a deposit ahead of any purchase or during sale proceedings and to refuse registration or any bid or bidder without giving reason. New Buyers are strongly advised to contact the Auctioneers well in advance of the sale.

Payment – All Lots must be paid for on the day of the Sale by the Buyer prior to any removal or consolidation, unless alternative arrangements have been agreed with the Auctioneers. At the fall of the hammer the highest bidder will be deemed to be the Buyer and transfers of purchases will only be permitted with prior approval from the Auctioneers. Any payment is to be by a means approved by the Auctioneers. Our preferred payment terms are debit card or cash and Kivells reserve the right to stipulate payment by these methods. Kivells may also accept bank transfers and cheques with prior approval. Our Bank Account details are: Sort Code 56-00-49 Account Number 32376359.

Payment in Cash – In order to comply with money laundering regulations we cannot accept Cash payments above the maximum permitted at the time of sale. The maximum varies according to exchange rates and currently it is circa £9,000. Buyers are advised to check with the Auctioneers ahead of the sale.

Conditions of Sale – It is strongly recommended that Bidders and Buyers visit **Kivells.com** and read the full Conditions of Sale produced by the Livestock Auctioneers Association (LAA) ahead of the sale. Unless advised otherwise you will be bidding and buying under these Conditions and you will be obligated to abide by these Conditions and these Notice to Purchasers. The LAA Conditions of Sale are also displayed in Kivells market office. Clauses 12 to 19 inclusive relate mainly to the Purchaser. This catalogue may also contain reference to Warranties as defined by the LAA Conditions of Sale. Warranty issues will not be considered if payment in full has not been received.

Risk – All livestock are at the risk of the Vendor before they are sold and at the risk of the Buyer when they are sold (fall of the hammer). It is strongly advised that Vendors and Buyers ensure that their insurance policies cover livestock at market premises and that Buyers have immediate cover for animals purchased.

Removal of Lots – Lots can only be removed once payment has been made in full and/or a pass issued by the Auctioneers. All Lots need to be cleared from the sale premises by 5pm on the day of sale unless otherwise agreed with the Auctioneers. **Descriptions of Lots** – Buyers should satisfy themselves prior to making bids as to the condition of any Lot and should rely on their own judgement as to whether the Lot accords with its description. All Lots are sold under the Livestock Auctioneers Association Conditions of Sale as referred to above to include the following two clauses:

Statements of Fact – Unless otherwise announced all statements of fact made in any sale catalogue or at the time of sale regarding the breeding of any animal, its health status or other tests carried out on any animal are statements of fact made by the Vendor and not the Auctioneer and the Auctioneer accepts no responsibility for any misstatement nor does he nor the Vendor accept any responsibility for any subsequent reaction by an animal sold to any relevant test administered after the sale.

Liability of The Auctioneer – The Auctioneer acts in all respects only as agent for the Vendor and no warranty is given by the Auctioneer or his employees or contractors, and none shall be implied, as to title, description or the quality of any Lot. Neither the Auctioneer nor his employees or contractors shall be liable to the Purchaser in any respect for any defect of title, error of description or imperfection or for any announcement or statement concerning any Lot offered for sale whether made orally or in writing (whether in a sale catalogue, order of sale, advertisement for the sale or otherwise) and whether given before, during or after the sale, nor shall he incur any liability in relation to any dispute between a Vendor and Purchaser.

Bidding Form – The Auctioneers will bid on your behalf if written instructions are received on the form supplied, or an email or text has been received confirming instructions and acceptance of the terms set out in the form and adequate time is available to enter such bids. The Auctioneers reserve the right to request a deposit as part of the instruction process. It is entirely at the discretion of the Auctioneers whether other forms of bids are acceptable however in every case there is no liability on the auctioneers.

Refreshments and Facilities – Canteen and toilets are on site.

QR CODES

In this catalogue we have printed QR code for each animal, this will take you to the web page which will give you full information on pedigree, bar charts and photographs if available

Step 1

Download and install a QR code app on your smartphone if you don't yet have one. Open your App Store, Market, Marketplace or App World application (for the iPhone, Android, Windows Mobile and BlackBerry platforms, respectively).

Step 2

Search for "QR code reader," and then download and install a free app. The app should be named something to the effect of "QR Code Scanner" or "QR Scanner." There are paid versions of these kinds of apps, but the free ones work just as well.

Step 3

Open the QR barcode app on your smartphone, and choose "scan from camera" or "scan QR code" from the main menu. A new window should open with a square in the middle of it.

Step 4

Center the QR code in the middle of the square that's currently displayed by your QR barcode app. The app should automatically take a picture of the QR code for you when it has finished scanning the code. A new pop-up menu will appear, with the QR code information on it.

Step 5

Click the link that was embedded in the QR code, this will direct you to the Society website.

EXPLANATORY NOTES FOR CATALOGUES

Only British Charolais BREEDPLAN EBVs can be validly compared between Charolais herds.

ESTIMATED BREEDING VALUES (EBVs)

The EBV is the best estimate of an animal's genetic merit for that trait.

ACCURACY

An accuracy value (Acc) is presented with every EBV and gives an indication of the amount of information that has been used in the calculation of that EBV. The higher the accuracy the lower the likelihood of change in the animal's EBV as more information is analysed for that animal or its relatives.

CALVING EASE

Calving Ease EBVs are based on calving difficulty scores, birth weights and gestation length information. More positive EBVs are favourable and indicate easier calving.

DIR: Direct calving ease indicates how this animal influences the birth of its progeny. Using a bull in the Top 1% for CE direct (+16.7) is predicted to result in approximately 15% fewer assisted calvings in 2 year old heifers compared with using a bull in the Bottom 1% (-20.2). This range is predicted to be smaller in cows. **Remember that the dam's genetics and management are significant factors influencing calving ease in any mating.**

DTRS: Daughter's calving ease indicates how well the animal produces daughters that have easier calving.

BIRTH AND FERTILITY

GL: Gestation Length EBV (days) is based on AI records. Lower (negative) GL EBVs indicate shorter gestation lengths which generally relate to easier calving and increased growth after birth.

BWT: Birth Weight EBV (kg) is based on the measured birth weight of animals, adjusted for dam age. The lower the value the lighter the calf at birth and the lower the likelihood of a difficult birth. This is particularly important when selecting sires for use over heifers.

SS: Scrotal Size EBV (cm) is an indicator of male fertility in regards to semen quality and quantity. Higher (positive) EBVs indicate higher fertility. There is also a small negative correlation with age of puberty in female progeny.

GROWTH

MILK: 200-Day Milk EBV (kg) is an estimate of an animal's milking ability. For sires, this EBV is indicative of their daughter's milking ability as it affects the 200-day weight of their calves.

200: 200-Day Growth EBV (kg) is calculated from the weight of animals taken between 80 and 300 days of age. Values are adjusted to 200 days and for dam age. This EBV is the best single estimate of an animal's genetic merit for growth to early ages.

400: 400-Day Weight EBV (kg) is calculated from the weight of progeny taken between 301 and 500 days of age, adjusted to 400 days and for dam age. This EBV is the best single estimate of an animal's genetic merit for yearling weight.

600: 600-Day Weight EBV (kg) is calculated from the weight of progeny taken between 501 and 900 days of age, adjusted to 600 days and for dam age. This EBV is the best single estimate of an animal's genetic merit for growth beyond yearling age.

MWT: Mature Cow Weight EBV (kg) is an estimate of the genetic difference in cow weight at 5 years of age. Moderate or larger EBVs are generally more favourable.

CARCASE

EMA: Eye Muscle Area EBV (cm²) estimates genetic differences in eye muscle area of a 300kg dressed carcass. More positive EBVs indicate better muscling on animals.

FAT: Rib Fat EBV (mm) estimates the genetic differences in fat depth at the rib in a 300kg dressed carcass. More positive EBVs indicate more subcutaneous fat and earlier maturity.

RBV%: Retail Beef Yield Percent EBV (%) represents total (boned out) meat yield as a percentage of a 300kg dressed carcass. A more positive EBV indicates higher percentage yield for the 300kg carcass size.

IMF%: Intra-muscular Fat Percent EBV (%) is an estimate of the genetic difference in the percentage of intra-muscular fat at the 12/13th rib site in a 300kg carcass. Depending on market targets, larger more positive values are generally more favourable.

Terminal Index

The BCCS Terminal index is aimed at a commercial herd using Charolais bulls over large framed, mixed breed cows to breed steers and heifers to finish at 18 months of age. All progeny are destined for slaughter and no replacement females are selected from within the herd. There is some emphasis on calving ease while finishing steers at around 680 kg live weight (375 kg carcass weight) using a pasture based production system supplemented with extra rations during the finishing phase.

Use this index in a commercial herd to produce progeny for slaughter. The index has moderate emphasis on easier calving (ie getting a live calf with minimal human interference) while producing calves that will then grow quickly to market specifications at around 18 months of age. The index is focused on slaughter animals and does not account for maternal traits and is therefore not suited to breeding replacement females.

If you are using smaller framed cows or heifers in your herd, then you should also put extra emphasis on a higher calving ease direct EBV when selecting a sire using this index.

Self Replacing Index

The BCCS Self Replacing index is aimed at a Charolais herd breeding steers to finish at 16 months of age. Replacement females are selected from within the herd. There is some emphasis on calving ease and maternal traits while finishing steers for slaughter at around 680 kg live weight (375 kg carcass weight) using a pasture based production system.

This Self Replacing index is also suitable to using Charolais sires over mixed breed cows where replacement females are sourced from within the herd. There may be some hybrid vigour expressed in the progeny depending on the breed type of the cows used. Therefore you should consider placing extra emphasis on the Calving Ease EBVs (more positive) of the sire to allow for possible heavier birth weights of his calves due to hybrid vigour.

Use this index in both commercial and pedigree herds where you are balancing the requirements of selecting replacement females while also producing animals for slaughter.

Charolais EBV ratios have been incorporated with the Estimated Breeding Values (EBV) to assist breeders in making their selection decisions when purchasing Charolais cattle. The Charolais EBV ratio for each trait shows that animal's breeding value for that trait in relation to the current published breed average.

The average for each trait is 100, and the approximate range between the bottom 1% and the top 1% is between 70 and 130.

<p>The British Charolais BREEDPLAN Estimated Breeding Values contained in this Sale Catalogue were compiled by the Agricultural Business Research Institute (ABRI) from data supplied by the breeders. Neither the British Charolais Cattle Society nor the ABRI oversee or audit the collection of this data.</p>

Lovely correct heifer that has not been pushed. Her grandmother was foundation female at Starlight bought for 6,500 from Balbithan dispersal. Her sire is a very easy calving bull bought from Brampton herd in North Yorkshire, a bull we use on all our heifers with really good figures. The breeding in this heifer speaks for itself

NOTES:

NOTES:

CONDITIONS OF SALE

All Cattle are sold under the British Charolais Cattle Society Terms and Conditions of Sale (Copies of which are available by request)

1 The biddings to be regulated by the Auctioneers, in terms of 'guinea' bids and multiples thereof, each guinea to be equivalent to 105 new pence (£1.05); if any dispute should arise, the lot in dispute to be put up again and resold, or the Auctioneers may determine the dispute at their discretion and their decision shall be final. The Auctioneers reserve the right to refuse the bid of any person without being called upon to give a reason for such action.

2 The Purchaser to give his name and dwelling place and pay for all lots at the close of the sale. No lot or lots shall be removed from the sale premises until paid for, and pass-out slip obtained from the Auctioneer's clerk.

3 Notwithstanding the foregoing and the following Condition 4, each and every lot shall immediately at the fall of the hammer be considered as delivered and be and remain in every respect at the absolute risk and expense of the respective Purchaser or Purchasers thereof, and shall be removed from the sale at the Purchaser's expense within a week of the sale.

4.1 If any lot or animal(s) is not paid for in cash under Condition 2 above, but payment is made by cheque or other form of negotiable instrument, then the animal(s) shall remain the sole and absolute property of the Vendor as legal and equitable owner until such time as all money due to the Vendor has been paid by the Purchaser. Payment shall, unless otherwise agreed, be made to the Auctioneers and shall not be deemed to have been paid until any cheque or other negotiable instrument has been cleared by the Auctioneers Bankers and the following further provisions contained in Condition 4 shall apply.

4.2 The Purchaser acknowledges that he is in possession of the animal(s) as bailee for the Vendor until such time as the animal(s) has been paid for or pursuant to the provisions of Condition 4.1.

4.3 The Purchaser undertakes to house any animal on his premises separately from his own and those of any other person and in such a manner which makes them readily identifiable as the Vendor's.

4.4 The Purchaser's right to possession of such animal(s) shall cease if he does anything or fails to do anything which could entitle a receiver to take possession of the animal(s) or which would entitle any person to present a petition for the winding up of the Purchaser.

4.5 The Vendor or the Auctioneers may, for the purpose of the examination or recovery of animals, enter upon any premises where they are housed or where they are reasonably thought to be housed.

4.6 If the Purchaser shall sell on the animal(s) the entire proceeds shall be held in trust for the Vendor and shall not be mingled with any other money paid into any overdrawn bank account and shall at all times be identifiable as the Vendor's money.

4.7 The Purchaser warrants that he is not, at the time of entering into any agreement to purchase the animal(s), insolvent and knows of no circumstances which would entitle any creditor to appoint a receiver or to petition for winding up or to exercise any rights over and against the Purchaser's assets.

4.8 Without prejudice to any other right or remedy of the Vendor or the Auctioneers of the Purchaser shall be in breach of any of the conditions set out in this Condition 4 or any of the other conditions herein contained the Vendor or the Auctioneers shall have power to resell the lots retaining any surplus and charging any deficiency or expense to the defaulter or Purchaser.

5 All statements in the catalogue or made by the Auctioneers at the time of the sale, also the identification of the animals, are the entire responsibility of the Vendor. The Auctioneers take no personal responsibility for the correctness of any such statement or identities.

6 All statements made either in the catalogue or any made by the Auctioneers at the time of the sale relating to Tuberculin or any tests, to be taken as statements of fact only. No such statement shall guarantee the Purchasers of any animals against loss arising through subsequent reaction of such animal to any test administered after the sale, and the Vendors shall not be liable in any way should this occur.

7 Neither the Vendor nor the Auctioneers will be responsible for any accident through fire or any other cause whatsoever, nor for any damage done by animals prior to, during, or after the sale.

8 In any dispute regarding an animal made in this sale the British Charolais Cattle Society Terms and Conditions of Sale shall apply. (Copies of which are available by request)

DIRECTIONS – EX2 8FD

From M5 North: Exit Junction 30. Take third exit at the roundabout onto A379 Exeter/Marsh Barton for 3 miles. At third roundabout take last exit onto B3123 Marsh Barton/Bad Homburg Way. Exit first left at next roundabout and The Matford Centre is 200 metres on left.

From A38 Plymouth: Exit at A379 for 1.7 miles. Take second exit at the roundabout onto B3123 Bad Homburg Way. Exit first left at next roundabout and The Matford Centre is 200 metres on left.
