Foreword

Kivells are pleased to have been instructed, on behalf of Evolution Farming Ltd, Houghton Lodge Farm, Leicester, to disperse their dairy herd on Tuesday 25th November at Exeter Livestock Centre. The decision has been taken to transition the farm back into arable production from spring 2026. This sale presents an exciting opportunity to purchase a quality group of crossbred cows that continue to deliver excellent results.

The herd has been assembled over a number of years with a clear emphasis on fertility, efficiency, and milk components. Over the past four years the herd has been further improved using high-EBI genetics, resulting in cows that are robust, efficient milk producers with strong health traits.

All cows in the sale calved this spring, having wintered in loose-housing yards and milked through a herringbone parlour. The herd has been recorded four times this year for both cell count and Johne's testing. ***No Johne's-positive cows are offered for sale.***

Houghton Lodge has completed both its annual TB test and the required pre-movement test, and the farm has **never** had a case of TB.

Historically the herd has been vaccinated for leptospirosis and IBR, although no vaccinations have been administered within the last 11 months.

Throughout this challenging summer the herd has been exceptionally well fed, receiving high-quality grass silage and concentrate in the parlour. As a result, the cows remain in excellent body condition, are milking strongly, and continue to deliver high-solids milk demonstrating both their strong genetics and the high standard of management.

Auctioneers' Comments

This genuine dispersal provides an excellent opportunity to purchase quality, grazing-type cows in superb condition. These hardy, efficient cows are well suited to a wide range of systems and will undoubtedly perform well wherever they go. A sale not to be missed at Exeter on Tuesday 25th November.
