756 Smaller Machinery & Goods – Auctioneers: David Kivell & Tim Kivell

It's amazing where all the equipment keeps coming from, another impressive layout of 756 lots of smaller items on the 'top side' here on Saturday. Luckily, we had a dry day which is unusual for Holsworthy. No massive crowd but still a decent 88% clearance.

Top call in the section was £430 given for a scaffolding tower set up. Other items such as an old petrol pump achieved £220, the best of the cement mixers sold well at £150 and a Halfords tool chest also reached £150. Calf feeders sold extremely well to nearly new prices at £150 for some Wydale feeders with other calf feeders making £135. Granite planters achieved £120, a single David Brown door sold right at the end made its money at £120. Five fence panels made £105 and a lion statue made £100 with its friend the Tiger statue followed at £80. Logs still in strong demand with winter upon us with the best bags of oak split logs reaching £80 per bag with many other dumpy bags of logs present selling between £60 and £75.
