## FOREWORD

Kivells are delighted to have received instructions on behalf of J D Pritchard of Lilwall Farm, Kington, Herefordshire to disperse the early portion of his autumn calving commercial herd of Holstein Friesian cows. The herd will be removed to Exeter Market for convenience of sale on Friday, 17th July 2026.

James Pritchard purchased Great Quebb Farm, Eardisley, Herefordshire in 2019 with the existing autumn calving herd and over the next few years, supplemented with private consignments of similar type cattle calving in the autumn. The herd has been run mainly in-calf to beef with a small percentage of heifers being reared.

The cows are run on a simple, yet effective, grass-based system with all cows calving in the autumn from mainly August, September and October. They are fed to yield in the parlour and fed grass silage with a simple forage box feeding system. The herd is grazed from spring through to autumn, reflecting a cost-effective and profitable management strategy. Cows are milked twice daily through a herringbone parlour and are cubicle housed. The cows are not officially milk recorded, but a recent herd cell count recording has been undertaken. The cows have been served mainly to AI Charolais and were synchronised with their first service on 13th December 2025 and will be due on 12th September 2026. Following this, they were running with a pedigree Aberdeen Angus bull in order to maximise efficiency for autumn calving and increase calf value. The herd is Johnes screened quarterly for the last 5 years and has recently been vaccinated for BVD, Leptospirosis, and IBR. The whole herd was TB tested on 22nd June 2026.

**Milk Sales per Cow: 7,000kg milk sold per cow. 4.3% BF, 3.5% PTN.**

**Average cc of cows in the sale: 166.**

### **Age Profile:**

48 of the milking portion are 1st and 2nd calvers. Including 25 first calvers, 23 second, 17 third, 9 fourth and 4 fifth plus.

### **Auctioneer's comments:**

The cows are managed on a very low-cost system to maximise profit on an autumn calving pattern. The cows are productive and accustomed to a practical simple system, making them ideally suited to a range of dairy operations. The herd is medium sized, with good udders, legs and feet and are used to walking long distances to graze the whole farm. The consignment of dairy cows will include some early autumn calving heifers as well as approximately 90 milkers, mainly in-calf to AI Charolais.

The cows for sale have been selected for the early part of autumn milk production and are thoroughly recommended for all commercial milk producers.

# Sale to follow the Dispersal of the 'Theknowle' herd.

## Separate catalogue available.

J D PRITCHARD  
LILWALL FARM , KINGTON, HEREFORDSHIRE, HR5 3EZ

The herd is not milk-recorded, however a CIS recording has been taken of butterfat, protein and cell counts with the details are shown in the catalogue.
