# **Veterinary and Society Inspection**

## **FRIDAY 17<sup>th</sup> April 2026 at 9.30am**

---

### **SALERS CATTLE SOCIETY**

### **PRE-SALE INSPECTION GUIDELINES**

#### **Veterinary Inspection**

1. Overshot or undershot jaws or other abnormalities.
2. Defective genital organs
3. Any other veterinary defects including warts, umbilical hernia and other hereditary conditions.

#### **Breed Inspection**

1. Faulty, illegible or incorrect ear tags.
2. Any animal exhibiting temper or unruly behaviour.
3. Any animal not exhibiting accepted breed characteristics.
4. Any animal below a reasonable standard of physical condition.
5. Any animal regarded as below the required standard due to either inferior or defective conformation. This covers every point of conformation including the ability to stand and walk properly.
6. Any animal that is not showing reasonable growth of age.
7. Any animal that is unsound, or appears ill, or under the influence of sedation

---

### **IMPORTANT NOTICE**

All pedigree cattle entered for sale are from a BVD CHcCs accredited herd or have been individually tested BVD antigen negative. All such animals have been fully BVD vaccinated at least two weeks prior to sale date. Females that are sold in calf must be from a BVD free accredited herd or individually tested before service, with the BVD status of the bull being determined before he serves these females that are to be sold.

---

# Livestock Notice to Purchasers

Viewing – Friday 10<sup>th</sup> April – 8am onwards.

**Health & Safety** – Kivells accept no liability for any damage or injury to persons, livestock, vehicles or plant not arising out of their negligence. Any person entering the livestock market premises does so at their own risk and must comply with the requirements of any Health and Safety notices. All persons entering the livestock markets premises are hereby given notice that there are potential hazards due to the type, penning, herding, loading and unloading of livestock and vehicle movement. Caution should be exercised and children must be fully supervised at all times. Kivells reserve the right to refuse admission to any person or vehicle into the livestock market premises without giving reason. Kivells strongly advise that no persons access the sale ring, pennage or livestock passageways during the sale or whilst animals are being moved through passageways. Should any person decide to enter these aforementioned areas they do so entirely at their own risk. Any incidents or accidents in the livestock market premises should be reported to Kivells market office immediately.

**Biosecurity and Livestock Welfare** – All persons entering Kivells livestock market premises must comply with all current Biosecurity legislation, rules and conditions. All persons should be in clean clothing and disinfect footwear upon entry and exit from the livestock market premises. Hand wash facilities, disinfectant boot dips and brushes are available and should be used. Vehicles used to transport animals to or from the livestock market premises must comply with current cleaning and disinfection legislation. All vendors, purchasers, agents and hauliers must comply with all current legislation governing the welfare of livestock whilst at Kivells livestock market premises or in transport to or from the livestock market premises. Any concerns over Biosecurity and Animal Welfare should be reported to Kivells Biosecurity and Animal Welfare officers, whose details are located in the Kivells market office.

**Registration** – In order to bid, all **new** Buyers are required to register before the auction, at the Kivells market office or as otherwise advised by the Auctioneers. All such Buyers will be asked for two forms of identification and a credit reference will be required. Acceptable identification includes Driving Licence/Passport together with a Utility Bill/Proof of Address/Business Letter Heading/Business Card. The Auctioneers reserve the right to request a deposit ahead of any purchase or during sale proceedings and to refuse registration or any bid or bidder without giving reason. New Buyers are strongly advised to contact the Auctioneers well in advance of the sale.

**Payment** – All Lots must be paid for on the day of the Sale by the Buyer prior to any removal or consolidation, unless alternative arrangements have been agreed with the Auctioneers. At the fall of the hammer the highest bidder will be deemed to be the Buyer and transfers of purchases will only be permitted with prior approval from the Auctioneers. Any payment is to be by a means approved by the Auctioneers. Our preferred payment terms are debit card or cash and Kivells reserve the right to stipulate payment by these methods. Kivells may also accept bank transfers and cheques with prior approval. Our Bank Account details are: Sort Code 56-00-49 Account Number 32376359.

**Payment in Cash** – In order to comply with money laundering regulations we cannot accept Cash payments above the maximum permitted at the time of sale. The maximum varies according to exchange rates and currently it is circa £9,000. Buyers are advised to check with the Auctioneers ahead of the sale.

**Conditions of Sale** – It is strongly recommended that Bidders and Buyers visit **Kivells.com** and read the full Conditions of Sale produced by the Livestock Auctioneers Association (LAA) ahead of the sale. Unless advised otherwise you will be bidding and buying under these Conditions and you will be obligated to abide by these Conditions and these Notice to Purchasers. The LAA Conditions of

Sale are also displayed in Kivells market office. Clauses 12 to 19 inclusive relate mainly to the Purchaser. This catalogue may also contain reference to Warranties as defined by the LAA Conditions of Sale. Warranty issues will not be considered if payment in full has not been received.

**Risk** – All livestock are at the risk of the Vendor before they are sold and at the risk of the Buyer when they are sold (fall of the hammer). It is strongly advised that Vendors and Buyers ensure that their insurance policies cover livestock at market premises and that Buyers have immediate cover for animals purchased.

**Removal of Lots** – Lots can only be removed once payment has been made in full and/or a pass issued by the Auctioneers. All Lots need to be cleared from the sale premises by 5pm on the day of sale unless otherwise agreed with the Auctioneers.

**Descriptions of Lots** – Buyers should satisfy themselves prior to making bids as to the condition of any Lot and should rely on their own judgement as to whether the Lot accords with its description. All Lots are sold under the Livestock Auctioneers Association Conditions of Sale as referred to above to include the following two clauses:

**Statements of Fact** – Unless otherwise announced all statements of fact made in any sale catalogue or at the time of sale regarding the breeding of any animal, its health status or other tests carried out on any animal are statements of fact made by the Vendor and not the Auctioneer and the Auctioneer accepts no responsibility for any misstatement nor does he nor the Vendor accept any responsibility for any subsequent reaction by an animal sold to any relevant test administered after the sale.

**Liability of The Auctioneer** – The Auctioneer acts in all respects only as agent for the Vendor and no warranty is given by the Auctioneer or his employees or contractors, and none shall be implied, as to title, description or the quality of any Lot. Neither the Auctioneer nor his employees or contractors shall be liable to the Purchaser in any respect for any defect of title, error of description or imperfection or for any announcement or statement concerning any Lot offered for sale whether made orally or in writing (whether in a sale catalogue, order of sale, advertisement for the sale or otherwise) and whether given before, during or after the sale, nor shall he incur any liability in relation to any dispute between a Vendor and Purchaser.

**Bidding Form** – The Auctioneers will bid on your behalf if written instructions are received on the form supplied, or an email or text has been received confirming instructions and acceptance of the terms set out in the form and adequate time is available to enter such bids. The Auctioneers reserve the right to request a deposit as part of the instruction process. It is entirely at the discretion of the Auctioneers whether other forms of bids are acceptable however in every case there is no liability on the auctioneers.

**Refreshments and Facilities** – Canteen and toilets are on site.

### **NOTICE TO PURCHASERS:-**

Please could all buyers and particularly those under **TB Restrictions**, make sure they are fully satisfied with their purchases before the cattle are removed from the market.

If you are purchasing cattle and your farm is under TB Restriction, it is not possible for the vendor to take the animal back should there be an issue, **therefore we ask that**

# UNDERSTANDING THE BREEDPLAN PERFORMANCE RECORDING INFORMATION IN THIS CATALOGUE

Only Salers GROUP BREEDPLAN EBVs with Accuracy (Acc) can be validly compared between herds.

## ESTIMATED BREEDING VALUES (EBVs)

The EBV is the best estimate of an animal's genetic merit for that trait.

### ACCURACY

An accuracy value is presented with every EBV and gives an indication of the amount of information that has been used in the calculation of that EBV. The higher the accuracy the lower the likelihood of change in the animal's EBV as more information is analysed for that animal or it's relatives. Accuracy below 75% should be considered low.

### CALVING EASE

Calving Ease EBVs are based on calving difficulty scores, birth weights and gestation length information. More positive EBVs are favourable and indicate easier calving.

**DIR:** Direct calving ease indicates how this animal influences the birth of its progeny.

**DTRS:** Daughter's calving ease indicates how well the animal produces daughters that have easier calving.

### BIRTH AND FERTILITY

**GL:** Gestation Length EBV (days) is based on AI records. Lower (negative) GL EBVs indicate shorter gestation lengths which generally relate to easier calving and increased growth after birth.

**BWT:** Birth Weight EBV (kg) is based on the measured birth weight of animals, adjusted for dam age. The lower the value the lighter the calf at birth and the lower the likelihood of a difficult birth. This is particularly important when selecting sires for use over heifers.

**SS:** Scrotal Size EBV (cm) is an indicator of male fertility in regards to semen quality and quantity. Higher (positive) EBVs indicate higher fertility. There is also a small negative correlation with age of puberty in female progeny.

### GROWTH

**MILK:** 200-Day Milk EBV (kg) is an estimate of an animal's milking ability. For sires, this EBV is indicative of their daughter's milking ability as it affects the 200-day weight of their calves.

**200:** 200-Day Growth EBV (kg) is calculated from the weight of animals taken between 80 and 300 days of age. Values are adjusted to 200 days and for dam age. This EBV is the best single estimate of an animal's genetic merit for growth to early ages.

**400:** 400-Day Weight EBV (kg) is calculated from the weight of progeny taken between 301 and 500 days of age, adjusted to 400 days and for dam age. This EBV is the best single estimate of an animal's genetic merit for yearling weight.

**600:** 600-Day Weight EBV (kg) is calculated from the weight of progeny taken between 501 and 900 days of age, adjusted to 600 days and for dam age. This EBV is the best single estimate of an animal's genetic merit for growth beyond yearling age.

**MWT:** Mature Cow Weight EBV (kg) is an estimate of the genetic difference in cow weight at 5 years of age. Smaller, or more moderate EBVs are generally more favourable.

### CARCASE

**CWT:** Carcase Weight EBV (kg) estimates the genetic difference in carcase weight at a standard age of 650 days.

**EMA:** Eye Muscle Area EBV (cm<sup>2</sup>) estimates genetic differences in eye muscle area of a 300kg dressed carcase. More positive EBVs indicate better muscling on animals.

**FAT:** Rib Fat EBV (mm) estimates the genetic differences in fat depth at the rib in a 300kg dressed carcase. More positive EBVs indicate more subcutaneous fat and earlier maturity.

**RBV%:** Retail Beef Yield Percent EBV (%) represents total (boned out) meat yield as a percentage of a 300kg dressed carcase. A more positive EBV indicates higher percentage yield for the 300kg carcase size.

**IMF%:** Intra-muscular Fat Percent EBV (%) is an estimate of the genetic difference in the percentage of intra-muscular fat at the 12/13<sup>th</sup> rib site in a 300kg carcase. Depending on market targets, larger more positive values are generally more favourable.

The Salers Cattle Society GROUP BREEDPLAN Estimated Breeding Values contained in this Sale Catalogue were compiled by the Agricultural Business Research Institute (ABRI) from data supplied by the breeders. Neither the Salers Cattle Society nor the ABRI oversee or audit the collection of this data.

gs. Rigel Orlando(PYE2008071)

**Dam - Ashbury Emma 9th(VEN2013010)**

gd. Ashbury Emma 4th(VEN2009001)

Ashbury Emma is an eight year old cow and a 6th calver. Originally sourced as a bulling heifer from Malcom Light's Ashbury herd. Scanned in calf, due in July. She has been commercially farmed in a large herd and been running with a Charolais and Limousin bull.

**Lot 41**

Max Parr

**1 x Cow 36 Months old**

Second calver scanned due in calf in July to Limousin or Charolais bull. Pedigree dam and pedigree sire just never registered. From a large commercial herd, she slipped out of calving block.

**Lot 42**

R & R Jordan

**1 x Bulling Heifer 17 Months old**

**Lot 43-44**

R & R Jordan

**2 x Bulling Heifers, 12 Months old**

# SALE RULES

## Important Notice of Vendors

- **Pedigree commission and levies:** Pedigree cattle to be sold in guineas. The commission on pedigree sales will be the guinea to the auctioneers and 2% to the Salers Society
- **Commercial commission and levies:** The commission on commercial cattle will be 5% to the auctioneers and 1% to the Salers society
- **Tagging:** Exhibitors must ensure that all cattle entered for sales are tagged correctly. Failure to do so will lead to the animal being rejected from the sale.
- **Halter training:** All pedigree cattle must be halter trained and wear nose leaders
- **BetaM:** Pedigree cattle must have non-carrier status for beta mannosidosis either by DNA test or by parentage
- **Health:** All cattle must comply with Salers Cattle Society of the UK rules regarding Herd Health
- **TB:** All entries must comply with current TB pre-movement testing requirements.
- **Bluetongue & other statutory health requirements:** All animals must comply with bluetongue and other statutory health regulations.
- **Diseases etc:** Check the animals are free from warts (pay particular attention to the sheath and scrotal areas), Ringworm, Mange, Lice or other contagious diseases.
- **Treatments:** If your entries are showing signs of any of the above conditions and have been treated then a signed veterinary certificate to that effect must accompany your entry.
- **Locomotion:** Check the animal's feet and legs are sound and the general locomotion is satisfactory. The animal may be rejected from the sale if the Society Inspector determines that it is defective in its legs, feet or locomotion.
- **Docility:** The animal may be rejected from the sale if the Society Inspector determines that it is displaying unruly behaviour.
- **DNA:** All pedigree bulls must have a DNA profile and have been tested for myostatin, the result will be made visible in the catalogue. All females for sale at society sales, including production Salers but not commercial animals, are to be tested for myostatin, unless they have a myostatin status of MOP (Myostatin free by Parentage) again the results will be visible in the sale catalogue.
- **AI:** An A.I. certificate must accompany the entry forms for any cows or heifers being sold described as in-calf by A.I.
- **Calves at foot:** Entries for recipients with pedigree calves at foot are also invited. A cow and calf may be allocated:-
  - One lot number therefore sold together as one consignment (single entry fee), or
  - Individual lot numbers therefore sold separately, providing the calf was born before 1st January 2020 (double entry fee)
- **ET:** It must be stated, if any cows entered, have been flushed and how many embryos have been taken.
- **Semen:** In the case of bulls, it must be stated if any semen has been retained and if so how many straws.
- **Inspection: All pedigree cattle will be inspected at the market by a veterinary surgeon, and by a Society approved inspector; cattle will be paraded for this inspection. Commercial cattle will be inspected in their pens by a Society Inspector**
  - **Eyes:** The veterinary surgeon may examine the animal's eyes to ensure that the retinas and lenses are sound. The vet retains the right to reject an animal for eye defects.

- **Dentition:** The veterinary surgeon will check the dentition is correct and the incisor teeth are biting on the upper pad. Animals will be rejected from the sale if the vet determines that their bite is severely overshot or undershot.
- **Scrotal Size:** All bulls will have their testicles examined by a vet. Testicles should be firm and even sized. Bulls deemed by the vet to have defective testicles will be rejected from the sale. The circumference at the widest part of the scrotum will be measured and should be 32cms at 12 months of age, 34cms at 18 months of age and 36cms at 24 months of age. The measured scrotal circumference will be displayed on the pen, and the Society may require the Auctioneer to announce in the ring that a bull does not meet our standards.
- **Teats:** All female animals will be put through the crush and have their udders/ teats examined for defects by the vet. They may be rejected from the sale if significant defects are found.
- **Diseases etc:** Check the animals are free from warts (pay particular attention to the sheath and scrotal areas), Ringworm, Mange, Lice or other contagious diseases.
- **Treatments:** If your entries are showing signs of any of the above conditions and have been treated then a signed veterinary certificate to that effect must accompany your entry.
- **Locomotion:** Check the animal's feet and legs are sound and the general locomotion is satisfactory. The animal may be rejected from the sale if the Society Inspector determines that it is defective in its legs, feet or locomotion. Where possible, allowance will be made for animals that have had a long journey time to the mart.
- **Docility:** All entries are to be halter trained and led using bull ring, or nose clip/bulldog for females. The animal may be rejected from the sale if the Society Inspector determines that it is displaying unruly behaviour.
- **Conformation and Condition:** Check the animals are of good conformation and in good condition, Pedigree bulls must meet the minimum weight for age standard as per the Society rulings. The measured weight for bulls will be displayed on the pen.
- **Declarations:** If semen has been taken from a bull, this must be declared for inclusion in the catalogue, along with the number of straws retained. If females have been flushed, this must be declared for inclusion in the catalogue, along with the number of embryos retained. If females are in-calf by AI, this must be declared in the catalogue and AI certificates must be provided.

#### **ADDITIONAL REQUIREMENTS - PEDIGREE CATTLE**

##### **All pedigree cattle entered for official Society sales must satisfy the following:**

- **BVD Accredited Herd:** Entries must be vaccinated with an approved vaccine no more than 12 months prior to the date of sale.
- **BVD not Accredited Herd:** The individual animals which have entered must be tested free of BVD virus and vaccinated at least two weeks prior to the sale date. Females that are sold in-calf or running with the bull must be from a BVD accredited herd or individually tested before service, with the BVD status of the bull being determined before he serves any females that are to be sold.
- **Johnes:** All pedigree entries to Society sales come from herds which have entered into a CHECs Approved or comparable Health Scheme and have a risk classification of 1-4 for the disease. ([www.checs.co.uk](http://www.checs.co.uk))
- **Beta-mannosidosis:** All Fullblood and Purebred animals must have a non-carrier DNA status for betamannosidosis.

- **Certificates of pedigree:** The official registration certificate issued by the society must accompany the entry form and entry fee along with the enclosed herd health declaration.

#### **ADDITIONAL REQUIREMENTS - COMMERCIAL CATTLE FROM HERDS IN A CHECS HEALTH SCHEME**

**(To be sold after the pedigree cattle)**

- **BVD Accredited Herd:** Entries must be vaccinated with an approved vaccine no more than 12 months prior to the date of sale.
- **BVD not Accredited Herd:** The individual animals which have entered must be tested free of BVD virus and vaccinated at least two weeks prior to the sale date. Females that are sold in-calf or running with the bull must be from a BVD accredited herd or individually tested before service, with the BVD status of the bull being determined before he serves any females that are to be sold.
- **Johnes:** All pedigree entries to Society sales come from herds which have entered into a CHeCs Approved or comparable Health Scheme and have a risk classification of 1-4 for the disease. ([www.checs.co.uk](http://www.checs.co.uk))

#### **ADDITIONAL REQUIREMENTS - COMMERCIAL FEMALES FROM HERDS NOT IN A CHECS HEALTH SCHEME**

**(To be sold after the commercial cattle from herds participating in a CHECS health scheme)**

- **BVD not Accredited Herd:** The individual animals which have entered must be tested free of BVD virus and vaccinated at least two weeks prior to the sale date. Females that are sold in-calf or running with the bull must be from a BVD accredited herd or individually tested before service, with the BVD status of the bull being determined before he serves any females that are to be sold.
- **Johnes:** Membership of a health scheme will not be required, entrants not whole-herd testing for Johne's will be listed as Level 5, although individual animal tests may be advertised on the pen. Animals in this section will be deemed commercial, and while separated in the market, they will not be completely segregated with different loading bays, etc. Standard commercial Society levies will apply.

**SOCIETY DISCLAIMER:** "All animals are subject to a pre-sale inspection to provide a minimum standard, and animals are sold with all patent defects, and any subsequent claim after the fall of the hammer is against the vendor and not The Salers Cattle Society of the UK.

**ACCEPTANCE OF STOCK:** Due to DEFRA regulations the arrival of stock can only be accepted onto the market premises within the time frame stated in the sale catalogue. Any alteration will be notified to all vendors; however, we request that all arrival times must be strictly adhered to when published in the sale catalogue.

**ENTRY FORMS - ENTER ON-LINE AT: [www.salers.uk](http://www.salers.uk)  
Tel: 01392 251261      Email: [livestock@kivells.com](mailto:livestock@kivells.com)**
