Foreword

On behalf of both Norton & Brooksbank and Kivells, we look forward to welcoming you to Exeter Livestock Centre for this Autumn sale of stock from the WALKABOUT herd on behalf of Richard, Sarah & Lawrence Gay & family.

The Gay family have milked cows under the Walkabout prefix for many decades with the milking herd having grown to around 400 cows for a number of years. In 2019 the milkers were sold as a herd to Baltier Farms in Scotland, as part of family partnership restructuring. At Baltier they have performed exceedingly well, both in the parlour and in terms of their breeding capabilities. Today, the numbers of cattle at home have now increased to over a thousand head, which in turn brings about the decision to consign almost 200 head to this most attractive sale.

Richard & Lawrence are both devoted students of the Holstein breed and for many years, and at most of the prominent herd dispersals throughout the country, they have acquired new additions to their herd, to the point that most of the prominent families in the breed are represented at Walkabout. From a pedigree perspective, many top cow families are represented in this catalogue. The sale contains not just milkers but also a nice cross section of young stock from close calving heifers to baby calves, giving a great opportunity to acquire cattle with great future potential.

Aside from the pedigree aspect, the herd has many commercial attributes and is currently in great shape, with the 80 or so milkers in the sale being a nice example cross section and includes many fresh young cows. Most of the milkers are housed in sand cubicles and fed a simple grass/maize TMR year round with cows having access to grazing during their dry period. For many years the herds nutrition has been expertly guided by Bernie Schmidt of FeedCo and the family would like to take this opportunity to thank him for his services & friendship.

Current annual herd average yield is over 11,000kg milk sold with the entire herd currently averaging 35kg at 4.3% fat, 3.5% protein, scc 135.

Herd Health

The herd is vaccinated for IBR, Lepto & BVD as well as Bluetongue with recent BT booster jab. The herd passed their latest complete herd clear test in August '26 with all the animals in the sale having been tested clear, again, on 9th October.
